

Sourcing

DO has a rich experience to provide customized quality services to seeking companies in Sourcing, Management services. We are proudly associated with several Multinational Companies in the area of securing inputs and services from India.

DO believes that Strategic Sourcing is a comprehensive process aimed at obtaining maximum advantage on cost, technology, process & quality by leveraging on company's buying power.

DO's sourcing process comprises

- Strategic Sourcing – Vendor identification, evaluation and development. Both in India and other countries. Evaluation process of any Supplier includes techno-commercial feasibility study, quality norms and assurance plan, adherence to EHS standards and other salient parameters as needed by the Buyer

- Contract framing for sourcing and with special attention paid to Price, Terms & conditions for supply, contract performance criteria, quality norms and their checks, rejection settlement norms etc.

- Offering complete end to end procurement process support.

- Post procurement analysis to ensure that best sourcing practice has been followed in the interest of suppliers and customers.

- DO has several success stories in providing Sourcing to well known Multinational Companies across the world. Pearl Pigments, Catalyst, Coatings, Modified Resins, Additives and basic/essential chemicals are some of the items where DO has offered specialized services.
